

H-84P LED MODULE FOR H-4DCA & H-4DCALED HANDLAMPS

WITHOUT COMPROMISE

PRODUCT INFORMATION

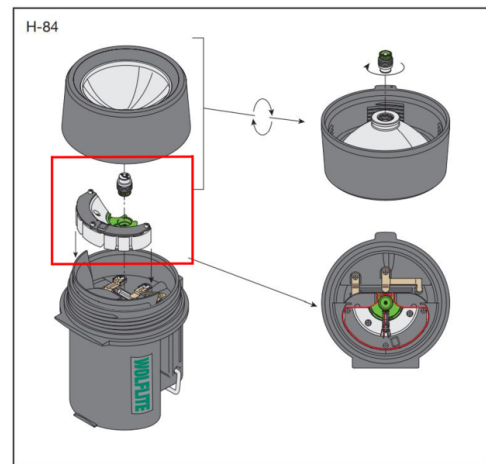

The H-84P LED module for the Wolfite H-4DCA Handlamp can be used to upgrade and replace the bulb with an LED module to increase light output by 700% (up to 269 lumens at source) and battery duration by 225% (up to 45 hours). The H-84P is also the LED source for the H-4DCALED Handlamp, so can be used as a spare should the LED become damaged or reaches the end of life.

Quick and Easy to replace and comes with a label to update the nameplate, confirming the H-84 Module has been fitted.

FEATURES

- Up to 269 lumens (at source) 7 X the light output of the H-4DCA
- Quick and easy to replace the existing halogen bulb within H-4DCA, upgrading the handlamp to the H-4DCALED
- Up to 45 hours battery duration - 2 X the duration of the H-4DCA
- Simple maintenance repair for H-4DCALED Handlamps to replace existing LED should it become damaged
- Typical life of over 25,000 hours

The H-84P LED Module; designed to upgrade existing H-4DCA bulb lamps to achieve the same outstanding performance as the brand new H-4DCALED handlamp
