

FLOOD BANK STANDS

FOR XT HANDLAMPS

XT-402, XT-404 & XT-406

MOUNT ZONE 0 HANDLAMPS XT-75 TO CREATE A ZONE 0 FLOOD LIGHT

PRODUCT INFORMATION

For safe use in Hazardous Areas, the Flood Bank Stands accommodate WolfLite® XT Rechargeable Handlamps and exploit their excellent performance and reliability to collectively deliver a bright flood of intense illumination of up to 2,100 lumens.

XT Handlamps can be removed and used by hand if needed for closer inspection

Adjustable angle in frame

Durable 316L stainless steel outer skid to protect the WolfLite®

Cable free for easy use and reduced risk of trips

3 models to choose from for optimum levels of light in workspace

Available in 2, 4 or 6 handlamp bank configurations, the stands can be placed on level ground or mounted on a tripod (available separately) to elevate, direct and focus the light to the desired task working area.

Utilising a stainless steel skid, each stand incorporates handlamp holders with a 'snap-in/snatch-out' function for quick release but secure retention, and allows the bank of handlamps to be manually tilted and locked in position. For maintenance tasks, the banks are easily transportable using the integrated handle.

The handlamps can be removed from the stand in the Hazardous Area and used for close inspection work, or in awkward to reach locations.

The Flood Bank can also act as an emergency backup light source, independent of lead powered lighting. Charging to be carried out in safe area (see XT handlamp sales sheet for full details)

TECHNICAL INFORMATION

FLOOD BANK STANDS			
PRODUCT REFERENCE	XT-402	XT-404	XT-406
PRODUCT DESCRIPTION	Flood Bank Stand		
HANDLAMP CONFIGURATION	x 2	x 4	x 6
STAND MATERIAL	Stainless Steel		
HANDLAMP HOLDER MATERIAL	Impact Resistant Thermoplastic, Electrostatic Non-Hazardous		
DIMENSIONS (LxWxH)	340 x 197 x 451 mm	340 x 352 x 451 mm	340 x 507 x 451 mm
